## WHAT USAGE OF OUR 3D LASER ENGRAVING MACHINE ?

Our company is the Top Manufacturer of 3D Laser Engraving Machine in China,compare to Europe Countries,the price of our machine is much lower because Europe factories have to pay much more TAX to government than us,you can see our machines has higher cost-effective.

We have been doing 3D machines for more than 12 years,we have the enough experience and professional technicians ,we have improved after-sales service team,independent R&D lab and strong research team.

We provided free training for the machine ,we can teach you face to face via the SKYPE or Wechat,our engineers can remote control your computer by Teamviewer Software to show you how to engrave & solve the problems,the Operation Manuals & Teaching Videos also will be sent with the machine together.

About the profit & cost:

- Cost of 5\*5\*8cm crystal cube from China: **\$ 2-3 dollars**
- Cost of engraving (Engraving time of per cube is about 4-5 min and the Power consumption of the whole machine is no more than 1500W) : **\$0.03 dollar**
- Normal retail price of 5\*5\*8 crystal cube with DIY Engraving Design : **\$50-100 dollars**
