APPLICATION

Crystals, Glasses, Acrylics, Polycarbonates or Methacrylates, etc.

Can be widely used to open a shop in malls or tourism place, even can open a shop online for 2D, 3D crystal photo engraving, art photo engraving, personalized crystal gift engraving, high precision crystal product mass processing, glass decorating, glass marking, high-grade glass anti-counterfeiting and other areas.
HOW USEFULL IS OUR 3D LASER ENGRAVING MACHINE?

Our company is the Top Manufacturer of 3D Laser Engraving Machine in China, compare to Europe Countries, the price of our machine is much lower because Europe factories have to pay much more TAX to government than us, you can see our machines has higher cost-effective.

We have been doing 3D machines for more than 12 years, we have the enough experience and professional technicians, we have improved after-sales service team, independent R&D lab and strong research team.

We provided free training for the machine, we can teach you face to face via the SKYPE or Wechat, our engineers can remote control your computer by Teamviewer Software to show you how to engrave & solve the problems, the Operation Manuals & Teaching Videos also will be sent with the machine together.

About the profit & cost:

- Cost of 5*5*8cm crystal cube from China: $2-3 dollars

- Cost of engraving (Engraving time of per cube is about 4-5 min and the Power consumption of the whole machine is no more than 1500W) : $0.03 dollar

- Normal retail price of 5*5*8 crystal cube with DIY Engraving Design : $50-100 dollars
What does it mean? It mean you only need sell about 400pcs crystal you can get the machine cost back! Means even you sell 10 pcs/day ,you only need about 40 days ,you will start make money!

If you are planning to open a store in Malls !!!

If you are souvenirs suppliers of Schools ,Hospitals,Weddings,Tourists Attractions,Home Decorations,etc.!!!

If you want to open your own new business !!!

We have many customers from all over the world has successed with our machine .So we do hope you will be the next, dear sir.
